

NON-STANDARD DOWEL PINS

Custom made dowel pin service to customer specification or drawing

Bespoke Dowel Pin Service

Our engineers understand that not all standard dowel pins are appropriate for demanding applications or specialist projects, and it can be difficult to source the exact dowel for your specific needs. With our machining capabilities we can create a bespoke dowel pin tailored to the purpose for which it is intended.

Our machines can produce dowels up to 32mm diameter, giving the option to add features such as flats, Circlip grooves or internal external threads.

We offer fast-turnaround, competitive pricing in a choice of the following materials:

- ◆ Through Hardened Steel
- ◆ Mild Steel
- ◆ Brass
- ◆ Aluminium
- ◆ Stainless Steel 303, 304, 316

Small Diameter Dowel Pins

The production of large runs of very small diameter dowels are one of Technifast's specialities. Our small diameter dowels range from 0.8mm - 5mm in diameter. We are competitively priced and can offer an efficient service from placing an order through to delivery.

We also work closely with a team of specialists who can provide finishes such as passivation and plating, enabling us to offer a full solution for our custom-made dowel pins.

Our specialist dowel pins are used some unique applications.

Technifast dowels have formed an integral part of diverse products from toy trains and surgical instruments, through to audio visual technology and marine leisure appliances.
